

Embedded Linux Conference Europe

October 27+28 2010

Cambridge, UK

Call for Proposals

The CE Linux Forum is focused on the use of Linux in consumer electronics products, but presentations may cover use of Linux in other embedded areas, as long as the topic is of general relevance to most embedded users.

Presentations, tutorials, demos and BoFs on the following topics are encouraged:

- * Audio, Video, and Graphics systems for embedded
- * Security
- * System size
- * Bootup time
- * Meeting real-time constraints
- * Power management
- * Streaming media
- * Flash memory devices and filesystems
- * Development tools for embedded users
- * Use of Linux in actual products, practical experience and war stories
- * Standards for CE products

Presentations should be of a technical nature. Commercial advertisements or sales pitches are not appropriate presentations for this conference.

If you make a presentation, you get into the rest of the conference for free. Limited travel and accommodation assistance is available, contact us for more information.

The program committee consists of:

- * Christian Schaller (Collabora, UK)
- * Klaas van Gend (MontaVista LLC, the Netherlands)
- * Michael Opdenacker (Free Electrons, France)
- * Ruud Derwig (chair, Virage Logic, the Netherlands)
- * Tim Bird (Sony, USA)

email: elce-10@tree.celinuxforum.org

All proposals must be received by June 30, 2010.
